MUHAMMAD BILAL

Cybersecurity Graduate | Android Technical Support | QA & Application Testing | E-commerce Content

Lodhran, Punjab, Pakistan | ballimalik221@gmail.com | +92 305 6491896

PROFESSIONAL SUMMARY

BS Cyber Security background with practical experience in Android troubleshooting, application support, QA-related issue investigation, and device management workflows. Comfortable with ADB/LADB, remote support tools, installation and removal checks, Zoho case documentation, and Windows command-line utilities. Also experienced in Shopify product listings, Amazon product graphics created in Canva, product videos edited in CapCut, and digital outreach support. Developing a Windows application testing agent as an independent project. Seeking opportunities in cybersecurity, QA, IT support, device support, or e-commerce operations.

TECHNICAL & PROFESSIONAL SKILLS

Android/IT support: ADB, LADB, remote Rescue support, device configuration, Android settings, MDM-related troubleshooting, app installs/updates/removal, issue escalation.

QA and testing: Reproducing defects, version validation, install/uninstall verification, registry checks, logs, command-line troubleshooting, test documentation.

E-commerce & content: Shopify product listing and categorization, Amazon product images, Canva, CapCut, short-form video editing, MS Office, Google Sheets, cold-email outreach support.

Cybersecurity foundations: Network security concepts, threat analysis fundamentals, vulnerability assessment fundamentals.

RELEVANT EXPERIENCE

Android Technical Support & QA-Related Responsibilities | Employer and dates: to be confirmed

- Investigate Android app installation, update, removal, and device compatibility problems using device settings and ADB/LADB.
- Provide remote support using Rescue and relevant Android troubleshooting tools; review developer options and accessibility settings as needed.
- Assist with MDM-related enrollment and device-management issues and investigate version-specific behavior.
- Record reported issues, troubleshooting steps, and outcomes in Zoho; coordinate with teammates and escalate problems requiring developer involvement.
- Reproduce software-related failures and document testing observations without exposing client information.

Shopify Product Lister | Self-employed · 2024 · 6 months

- Created and maintained Shopify product listings, product descriptions, categories, and associated product information.
- Supported product presentation with Canva visuals for Amazon products and edited product videos in CapCut for Amazon store listings.

Freelance Video Editor | Self-employed · 2024 · 3 months

- Edited short-form video content, including “cash cow”-style videos; refined sequencing, pacing, and final presentation.
- Used CapCut to prepare product-related videos for online store content.

Digital Marketing Assistant | Self-employed · 2024 · 3 months

- Assisted with cold-email outreach, drafted message content, and helped organize recipient lists.

INDEPENDENT TECHNICAL PROJECT

Windows Application Testing Agent | Independent development and testing

- Work on workflows that select application packages, test Windows installation/uninstallation, and check software versions and package identifiers.
- Investigate failure cases, installer commands, silent installation behavior, Windows Registry detection, and per-application test reports.
- Technologies and environment: Windows, Winget package manifests, Python, registry and command-line tooling. Project remains under development/testing.

EDUCATION

Bachelor of Science in Cyber Security | The Islamia University of Bahawalpur · 2021–2025

Academic focus: threat analysis, information security protocols, network security, and foundational vulnerability assessment.
